## Your child at 18 months

Milestones matter! How your child plays, learns, speaks, acts, and moves offers important clues about their development. Check the milestones your child has reached by 18 months. Don't wait. If your child is not meeting one or more milestones, has lost skills they once had, or you have other concerns, act early.

### Social/Emotional Milestones

- Moves away from you, but looks to make sure you are close by
- Points to show you something interesting
- Puts hands out for you to wash them
- Looks at a few pages in a book with you
- Helps you dress him by pushing arm through sleeve or lifting up foot

### Movement/Physical Developmental Milestones

- Walks without holding on to anyone or anything
- Scribbles
- Drinks from a cup without a lid and may spill sometimes
- Feeds self with fingers
- Tries to use spoon
- Climbs on and off sofa or chair without help

### Language/Communication Milestones

- Tries to say three or more words besides "mama" or "dada"
- Follows one-step directions without any gestures, like giving you the toy when you say "Give it to me".

### Cognitive Milestones

- Copies you doing chores, like sweeping with a broom
- Plays with toys in a simple way, like pushing a toy car

- What are some things your child likes to do?
- Is there anything your child does or does not that concerns you?
- Is there anything your child does or does not that concerns you?
- Has your child lost any skills they once had?
